

CLD & ASSOCIES
RESEAU CRISTAL

Date: December 28, 2018.

LETTER OF REFERENCE

Marine Josso, Doctor of Veterinary Medicine, worked as a poultry veterinarian for our clinic "SELARL CLD & Associates" in Marcillat-en-Combraille (France) from September 10, 2018 to December 28, 2018.

During this time, she was fully dedicated in meeting her objectives:

- conducting preventative visits of poultry farms & documenting results
- troubleshooting diseases in poultry farms (emergency visits)
- engaging in technical meetings with our key accounts
- delivering technical speeches to our customers' poultry technical team

During this period, Marine was able to reinforce her skills in biosecurity on the field and in avian necropsy.

Marine has an outgoing personality. Her energy and motivation allowed her to meet her goals. Marine showed great ability to communicate and displayed interpersonal skills with farmers, technicians and veterinary doctors.

It was a pleasure for our team to work with Marine. She made a very good impression on us since the first interview and leaves us only very good memories.
